

I just want to write and let you know how much K-Love has meant in my life. If it were off the air my life would be missing something very important. It is uplifting and helps provide a good focus for life leading to a productive lifestyle. I am against the proposed new rulings concerning the air waves, reminding you of the First Amendment rights.

Requiring one board for the overseeing of all broadcasters does not seem like a democratic society.

Requiring additional staffing would add tens of thousands of dollars in additional monthly expense to each affected station which ultimately might force some to leave the air in some areas.

Forcing many of the translator stations off the air: giving priority to many new Low Power FM stations (LPFM) rather than existing translator stations. Which would mean many of the translators would no longer be able to carry K-LOVE programming. Please do not stop my station that brings so much life-giving information to so many. It helps make for a better America.
